

## Keepsake Card by Ana Cabrera

Next time you need to send a greeting, why not make the card yourself? This keepsake is not only a touching gesture, it is also a gift able item in itself.

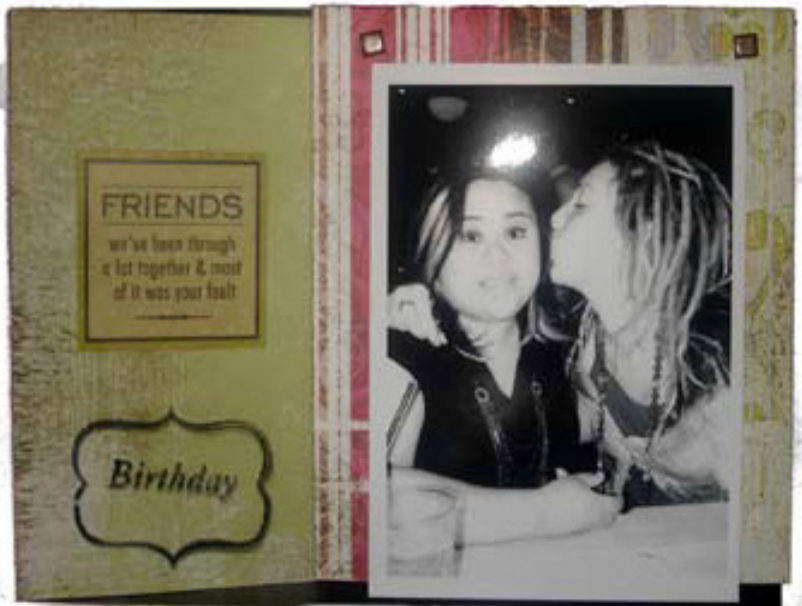

Supplies:

Purple Cows Kool Laminator-Trimmer kit  
and Kool Laminating Pockets

Patterned Paper

Stamps

Solvent ink pad (Such as StazOn)

1. Print and trim a photo for the interior of the card. We used a photo that was 2" x 3".
2. Carefully open up the laminate sheet. To the adhesive side, adhere the patterned paper so that it completely covers the adhesive with a 1/2" overhang on each edge.
3. Trim the patterned paper so that the back page of the card is flush with the front clear cover.
4. Adhere the photo to the inner page as shown.
5. Adhere the contrasting card stock to the outside cover as shown. Use stamps and ink pad to embellish the cover.
6. Write your personal greeting on the inside page. Try to stay behind the contrasting cover sheet. This will create a nice surprise for your recipient.
