

## STEP 1: PREPARE YOUR SURFACE

-Insert heavy duty cardstock inside 13 canvas bag so paint does not bleed to the other side.

## STEP 2: CREATE YOUR DESIGN

-Gently remove Broadside Alpha Stencil-Mask™ & Everyday Shapes Stencil-Mask™ from clear sheet and place directly on prepared surface.  
-Once letters & shapes are in place, make sure they are smooth and flat to the surface without bubbles or wrinkles.

## STEP 3: PAINT YOUR SURFACE

-Use your favorite spray ink or paint, we used Heidi Swapp Color Shine Spray.  
-Place white paper or card on the straps of the bag if desired.  
-Spray the entire surface area, including Stencil-Mask™ letters & shapes.  
-Once surface is completed, use a pin or tweezers to gently remove letters; drying time is unnecessary.  
-Place Stencil-Mask™ letters & shapes back on their clear sheet.  
-Easily wipe clean letters using a baby wipe and paper towel.

## STEP 4: YOUR FINISHED ART

-Once dried, you can add stitching or ink to your bag and add embellishments if desired.
